August 29, 2023.

To
Dr. Jayeshbhai Sheth
Frige Institute of Human Genetics,
Frige House,
Jodhpur Village Road, Satellite,
Ahmedabad – 380015.

Sub.: Request for the 48th Annual meeting and international conference of human Genetics conference message as a Patron of the conference.

Dear Jayeshbhai,

I am happy to know about the 48th Annual meeting and international conference is being planned in Ahmedabad, from 21st to 24th January 2024. I am sure that this conference will discuss the societal problems like familial cancer, Birth defects, infantile mortality, Maternal and child health, early cardiovascular disorders and their genetic link which can help us to minimize the burden. A Galaxy of scientists from across the world is gathering in the city including WHO which is a matter of great pride. I convey my best wishes and congratulations to the Organizer of this conference, Foundation for Research in Genetics (FRIGE) and Gujarat biotech Research Centre (GBRC-GOG).

Genetics has an immense effect on the health of an individual because of its predictive ability that the individual may suffer from some particular disease. It will help the individual and the society to make lifestyle changes much earlier so that the diseases can be prevented or mitigated. Thus, the field of Genetics has a very vast potential for public health.

Yours warmly,

Anil Bakeri
